

GEOTAC Card's

GEOTAC® cards –made out of pure silicon- have been designed to harmonize jamming effects caused by earth radiation. They are primarily used at the presence of water veins.

Water veins are the most well-known earth rays. They are subterranean floating water channels which deflect the electromagnetic field of the Earth's core. One can measure it technically and their harmful effects are known since centuries by mankind.

This fictive ground-plan of an apartment shows a typical water vein. Although water veins are often not larger than 10cm to 20cm, they can, depending on their depth, be measured as jamming source with a width up to one meter and more.

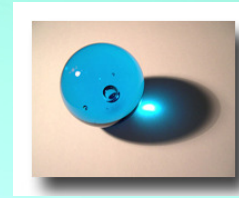

As known from electromagnetic fields, water veins are polarized with a left- or right-spin (see also column *left/right-Spin* on www.biotac-tecline.com). Unfortunately most (70-80%) of the water veins are polarized with a left-spin, which is known to stress body cells of organism.

In order to harmonize water veins, resp. their polarity from left- to right-spin, many dowsers uses with great success our tachyonized GEOTAC® cards. To do so, the cards are placed on the floor at the spot where the water veins enter the building.

GEOTAC Card® A6	CHF 79,30
GEOTAC Card® A5	CHF 127,00
GEOTAC Card® A4	CHF 226,00

Silicon CHI spheres

In order to harmonize the Hartmann- and Curry grid, the GEO set , consisting of four tachyonized silicon spheres and a tachyonized half-sphere can be used.

The tachyonized half-sphere with its inside pyramid serves to complete the tent-like tachyon field.

GEO sets are available in the following color variations: gold, light green, turquoise, indigo blue, lilac and crystal clear.

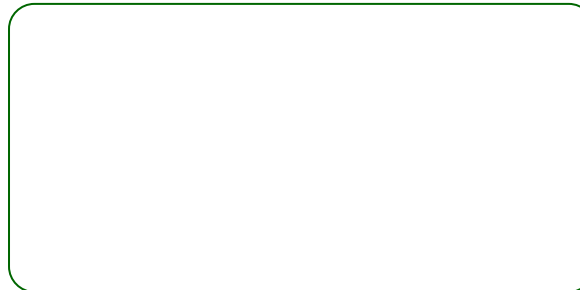

GEO-Set A	(Ø 40mm spheres)	CHF 390,00
GEO-Set H	(Ø 50mm spheres)	CHF 480,00

Products for electric smog shielding:

IMERA®-Disc indigo blue	CHF 147,00
SITAC CARD® A6	CHF 79.30
SITAC CARD® A5	CHF 127.00
SITAC CARD® A4	CHF 226.00

The invisible earth radiation provokes several disease patterns !

As -in the meantime- it has become possible to demonstrate and to attest these kind of radiation not only by the help of pendulums and baguettes, scientists, researchers and physicians finally affirm -after decades of back and forth- their existence and their hazardousness. Ultramodern electronic devices, such as the scintillations-counter, are capable to detect these electromagnetic fields and to visualize them on a monitor.

Do not forget: in bygone days cows, horses and sheep have been escorted on the future building site. Then they were strictly observed.

Right there, where these mammals lay down to ruminant, „non-perturbed“ spots were detected by dowzers; except for:

cats: they avoid „good“ places. They are delight in sleeping exactly on geopathic stress zones.

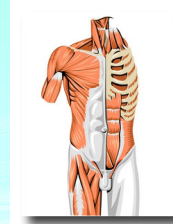

Since thousands of years already, earth radiation such as water veins, are well known to mankind. Only unto about 300 years ago, both in Europe and elsewhere, the presence of earth radiation were very often carefully taken into account when constructing a house. The harmful effects were very well known at that time.

In this leaflet we will talk about the basics and we will offer you efficient proposals for solution on how to harmonize harmful earth radiation and electric smog influences as well. Since 1995, **BIOTAC GEOLINE®** tachyon products represent one of the most efficient products on the world market.

Pathogenic symptoms

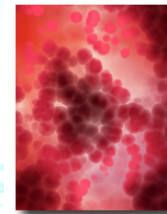

Ample evidence and systematic scientific researches based on thousand of experienced cases prove the noxious effects of earth radiation.

The medical effect caused by earth radiation is known under the synonym „geopathy“. Physical problems manifest themselves in terms of symptoms such as recrudescence, destabilized immune defense and therapy resistance.

In the majority of cases, persons suffering from chronic diseases, show almost always geopathic charges, id est, they are -almost without exception- exposed to geopathic stress zones during their sleep.

Today, physicians are aware that persons, who are exposed to these kind of radiation -either at one's place of work or lying in bed during the night-, different health problems can easily emerge.

Since more than eighty years innumerable scientific proves exist, explaining the harmful influences of earth radiation. Especially the stress zones named after Dr. Manfred Curry and Dr. Ernst Hartmann can demonstrably lead to chronic diseases, muscle cramps and cancer, too. Further known symptoms are:

- poor or restless sleep
- fatigue even after a long sleep
- tendency to nervousness and huffiness
- lack of concentration
- frequent head aches
- chronic back pain
- allergies, skin diseases
- modified blood levels

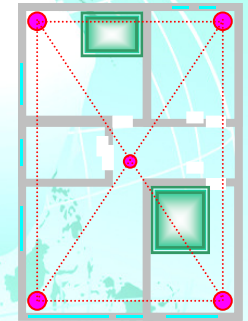

Harmonizing earth rays

Since more than ten years we apply with big success our „GEO-Set“ for the harmonization of Hartmann- and Curry grids.

A GEO-Set consists of 4 silicon spheres and 1 silicon half-sphere. These tachyon products are used as follows: the spheres are to be put in the four corners of a flat, house or office place; the half-sphere is to be placed on the ceiling (crossing point). This leads to a tent-shaped tachyon field which neutralizes and harmonizes reliably the two radiation grids (Hartmann and Curry).

The primary advantages of this system consist in the fact that you do not have to change the arrangement of your furniture.

You can leave them at their places; exactly as you wish.

If there are any kind of electromagnetic jamming sources or radiation from outside (mobile phone antennas, satellite dishes, electric power lines, ecc.) one can neutralize and harmonize them reliably with our indigo blue IMERA®-Disc which has been developed for his kind of interferences.

Please ask for our leaflet „Electro Smog“.

The costs for a radiesthetic harmonization with BIOTAC GEOLINE® tachyon products amounts to approx. CHF 900,00 (apartment) resp. CHF 1'500,00 for a single-family home. These prices include the harmonization of internal electric smog with our SITAC Card's.
